Data Collection Changes and Reminders

Modification to the Fall Staff Report and some very specific reminders are listed below. Carefully read the questions and descriptions when creating or modifying staff and assignment data. Refer to the "Data Definitions" or "Validation Criteria" for further clarification of data elements/ specific questions.

Changes for the 2011-2012 School Year:
The most significant change for the 2011-2012 school year is the implementation of new subcontracted individual field. The Contracted Assignment and Contracted Agency data elements have been combined. The new question, "Is this assignment being performed by a subcontracted individual?", will be asked for all position/assignment combinations except for staff with an assignment type code of 2(Short-Term Substitute/Extra Curricular Activities). The old Contracted Agency field will be used to hold the Y or N answer to this question. The Contracted Agency field name has been change to: "Subcontracted individual through a contracted agency". The old Contracted Assignment field has been changed to Filler.

Other changes include:
- Starting with the 2011-2011 school year, the long term substitute question: *"Is this assignment being performed by a long term substitute?"* will be asked *as an optional field for most* positions with assignment type of codes of:
  - 0 (Professional - Special Education) or
  - 1 (Professional - Regular Education)
  - with the exception of 53-0970 (Teacher/Intern)
  - Y-Yes, N-No or blank will be acceptable values.

  A "Yes" or "No" answer will be required for the following positions:
  - (no change from the 2010-2011 collection):
  - Required when position is 53 (except if assignment is 0970-Intern).
  - Required for position/assignment combinations 54/0000, 62/0884, 84/0000 or 85/0000.
  -
  If you are aware of a staff member who is a long term substitute, please update the record accordingly if time permits.
  **Note: Starting with the 2012-2013 school all positions with assignment type of codes of: 0 (Professional - Special Education) or 1(Professional - Regular Education) with the exception of 53-0970(Teacher/Intern) will be required to answer this question yes or no

- Contract Salary and Contract Fringe value maximums have been increased. Contract Salary will now allow values less than or equal to $300,000. Contract Fringe Benefits will now allow values less than or equal to $110,000.
- All NCLB data elements will now accept a zero value for the number of classes. For further guidance, see the Number of Classes Document, which will be published on the new website.

Position/Assignment code changes:
- 53-0940 Teacher / Academic Support - Non-Special Education pupils; has been changed to allow staff reporting at both the district level and school level.

- Deleted codes:
  - 53-0043 Teacher / Perm Substitute
  - 98-0980 Other Support Staff / Parent Education
  - 98-0990 Other Support Staff / No area description
  - 51-0003 Principal / Mentor - In the future, LEAs should report the entire assignment as 51-0000. (New 09-15-2011)
  - 54-0003 Guidance Counselor / Mentor - In the future, LEAs should report the entire assignment as 54-0000. (New 09-15-2011)
  See the 2011-2012 position/assignment table posted on the website for the complete list of assignment codes: http://www.dpi.wi.gov/lbstat/fallstaff.html

Reminders:

When reporting staff data, use the name from the individual's Social Security card. This will minimize discrepancies between districts when data is being reported for one individual by multiple districts.

Do not create artificial Social Security Numbers (SSNs). Use the SSN from the individual's Social Security card. All employees must have valid SSNs in order to be employed, so no SSN will be accepted if it contains alphabetic characters or too many strings of zeros.

All licensed staff must have a valid SSN that goes with the File Number in the Teacher Licensing database. The file number is assigned when an application for licenses is received. If you did not include the File Number in the file upload, you must use the "Get File Number" feature in the application to populate that field for staff reported in licensed positions. This feature is accessible on the Main Menu. If the district reports an individual in a licensed position but the SSN does not match the Teacher Licensing database, the individual will display on the Report for Missing/Invalid Staff File Numbers. Be sure new staff members have requested their licenses in order to receive a file number.

Salary and fringe benefits are no longer being collected for extracurricular duties. Report only the salary and fringe benefits from the contract for regular assignments types 0 and 1.

Gender, race/ethnicity code, and year of birth are required for all records.

The PI-1202 data your district uploads or creates will be validated and must be free of errors before it can be locked and submitted to the Department. You may validate your uploaded data at any time by clicking on the Validate button.

Please note there are many reports available to assist you in double-checking your data, either by providing a list of errors or context in which to view the data submitted. Some examples, Statewide District Contacts, PI-1202 Average Salary Summary, Staff Without Experience and Draft Administrative Salary Report. *The act of locking and submitting data signifies that the district accepts the data as valid and accurate.*

Internet Application

The Department of Public Instruction collects PI-1202 data using a web-based application on the Internet. The URL for accessing PI-1202 software is **https://www2.dpi.state.wi.us/staff**. Staff responsible for completing the PI-1202 are able to create records from the previous school year or use a file-upload process to load files. The staff and assignment records may then be modified as needed and additional records may be added. Reports are available to summarize and validate the district data.

Browser Versions

For the PI-1202 software to work properly, use browsers that are W3C compatible: Internet Explorer (IE) 5.5 (or greater) or Netscape 6.0 (or greater). If you need to upgrade your Internet browser, contact your district's technical support team.

Technical Guide

Overview

The PI-1202 Fall Staff Reporting System facilitates the collection of agency staff demographic and assignment data. Reporting should reflect all staff employed by your agency as of the third Friday in September. Prior to submitting the data make sure to delete records of those no longer employed; add records for new staff members; and update records appropriately. You should be reporting staff that are hired by your agency, or are contracted to provide services to your schools unless they are hired by another public school district, CESA, or CCDEB. If another public school district, CESA or CCDEB hires the individual, they should be reporting an assignment to reflect the FTE working for your agency. A data quality report is available to review staff by work location.

New staff added to the Fall Staff report should show one year of local experience. Total experience should reflect the number of years of educational experience *including the current school year.*

Be sure to update salary information and verify fringe benefit entries. Fringe benefits reported on the PI-1202 Fall Staff report are the total of all of those listed under Object 200 Employee Benefits in the Wisconsin Uniform Financial Accounting Requirements (WUFAR) Handbook. Information about WUFAR is available at http://www.dpi.state.wi.us/sfs/pdf/wufar_final.pdf

Most teachers (position 53) should be reported at a school level, not a district level. Use a school number instead of the 0000, if at all possible. If you prepare a file to import your data, make sure that all teachers are reported at a school level from your source files.

When data entry is complete, verify the data with the 'Validate Data' link and review the reports available on the 'Report Menu'. Once the data has been verified, 'Lock and Submit' the PI-1202 Fall Staff Report to the DPI. The successful 'Lock and Submit' process indicates that the district assures the data is valid and accurate.

Steps to complete the PI-1202

1. Review instructions and changes.

2. Update/Complete District Contact Info.

3. Upload **or** Create Staff Records (part of Upload or Create Records).

❖ District Contact Information

In order to facilitate the flow of information to those responsible for filing the PI-1202 Fall Staff Report, it is necessary to update the contact information for the district. If the information is the same as the prior year, click on save to confirm the information. This information must be updated or confirmed before the PI-1202 data can be submitted to DPI.

Both primary and secondary contacts are required and the secondary contact information must be different from the primary contact. Correct information allows districts to communicate with each other in order to resolve conflicts in staff data.

- Enter new or revised contact information.
- Click ⊞ **SAVE** when finished.

❖ Entering Staff Data

Two options are available to enter fall staff report data. Data may be uploaded into the application in two text files (*.txt) or records may be created from the staff and assignment records on file at the DPI from the previous school year. The same method must be used for both staff and assignment records.   It is not possible to upload a portion of the data and create the remaining data. Once the initial data has been loaded into the PI-1202 application, data can be added, edited or modified from the Staff & Assignment List.

Upon first entry to the 'Upload or Create Records' Menu, the following menu will be displayed. If your agency plans to Upload Staff and Assignment Files, you will need to be familiar with these record structures. Two files should be created, one for personal staff information and another for assignment data. See the 'Upload File Structures' section for detailed information about these files.

- Update the staff files to show staff employed by your agency as of the third Friday in September and their assignments for the current school year.

- Delete records of those no longer employed; add records for new staff members; and update records appropriately.

Add a new record for the individual and add new assignment records. Tips about validation rules are for each field are within the Data Definitions section of this document.

Be sure to update salary information and verify fringe benefit entries. Fringe benefits reported on the PI-1202 Fall Staff report are the total of all of those listed under Object 200 Employee Benefits in the Wisconsin Uniform Financial Accounting Requirements (WUFAR) Handbook. Information about WUFAR is available at http://www.dpi.state.wi.us/sfs/pdf/wufar_final.pdf

Three options are available to save the Employee Information.

- Click the 'Save & Add Assignment' Link to save the employee information and add an assignment (for new employees or an existing employee with an additional assignment).

- Click the 'Save & Return to Staff List' Link to save the employee information and return to the staff list page.

- Click the 'Save & Return to Teacher List' to save the employee information and return to the teacher list page.
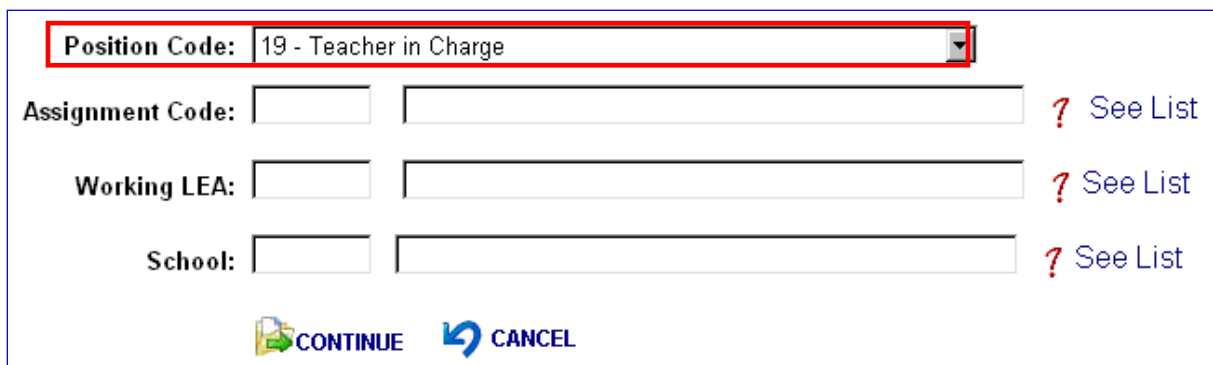

Likewise there are two options to cancel without saving to return to either the staff list or the teacher list.

NOTE: The file number will be stored as a 6-digit number until the teacher licensing database has been changed to 7 digits.

❖ Assignment Information

Four criteria are presented to determine the subsequent assignment survey questions. Complete the criteria from top to bottom.

- To choose a position code, click on the arrow for a drop-down list of choices.

- To choose an assignment code, click the "See List" to the right of the Assignment Code line and a list of valid assignments for the chosen position code will be displayed.

- Double-click the appropriate assignment to add the proper code to the assignment box on the assignment info form. If the assignment code is known, it is not necessary to view the list.

    Note that selecting a new 'Position Code' will force reentry of the 'Assignment Code'.
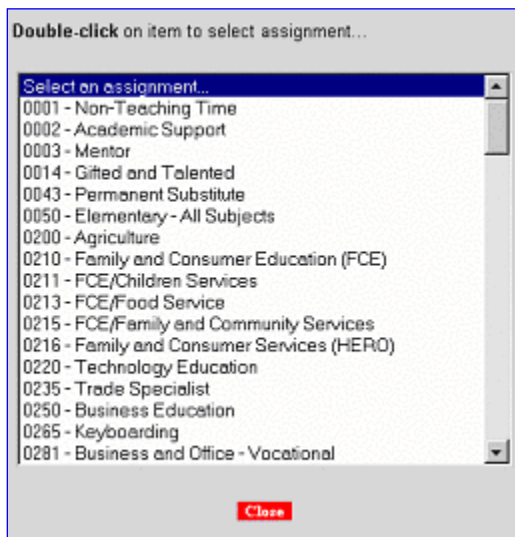

Follow the same procedure to display a list of valid Working LEA's and a list of Valid Schools, to fill the 'Working LEA' and 'School'. Note that selecting a new 'Working LEA' will force reentry of the 'School'.

Teachers (position 53) and principals (position 51) should be reported at a school level, not a district level. Use a school number instead of the 0000 (that is only used for district level reporting). If you prepare a file to import your data, make sure that all teachers and principals are reported at a school level from your source files.

Click **CONTINUE** to display the **Assignment Related Questions Screen**.

❖ Assignment Information continued

Assignment Related Questions Screen:

Depending on the position, assignment and validation rules, a list of questions will be presented about the assignment. This list will vary depending on what information needs to be collected for a given assignment. Refer to the Data Definitions section of this document for further information about the assignment questions.

Number of classes per core NCLB subject:

Per ESEA provisions, states are required to report the number and percentage of core academic classes taught by highly qualified teachers, disaggregated by low/high poverty schools. To comply with federal regulations, LEAs must provide in the PI-1202 report the specific number of classes, specifically core academic classes, taught by each teacher. For most teaching assignments this information can be derived based on the assignment code. DPI is unable to derive this data for special education assignments, and thus we need to collect that information for all special education teaching assignments.

❖ Get Staff File Numbers

For districts that use file upload or add new employee staff records and do not have staff file numbers, this step will pull the file number from the DPI's teacher licensing database based on the SSNs entered and position/assignment codes. Staff that are in licensed positions and should be licensed but are not yet on the teacher licensing database will display in the Missing/Invalid Staff File Numbers Report (look under the Reports Menu). File numbers submitted which do not match the teacher licensing database because of incorrect SSNs in the submission will also display on the Missing/Invalid Staff File Numbers Report. These errors need to be corrected before the data is locked and submitted to DPI.

- From the PI-1202 Main Menu, select 'Get Staff File Numbers'.
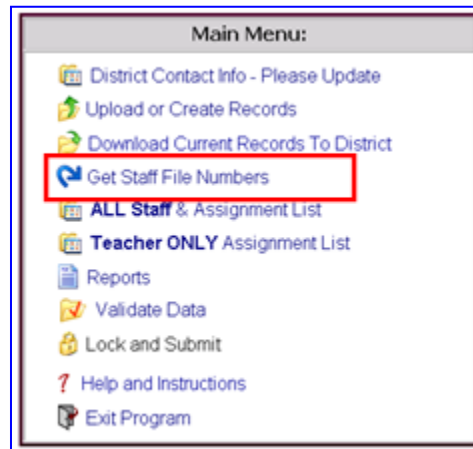

- It will immediately start the search for file numbers.
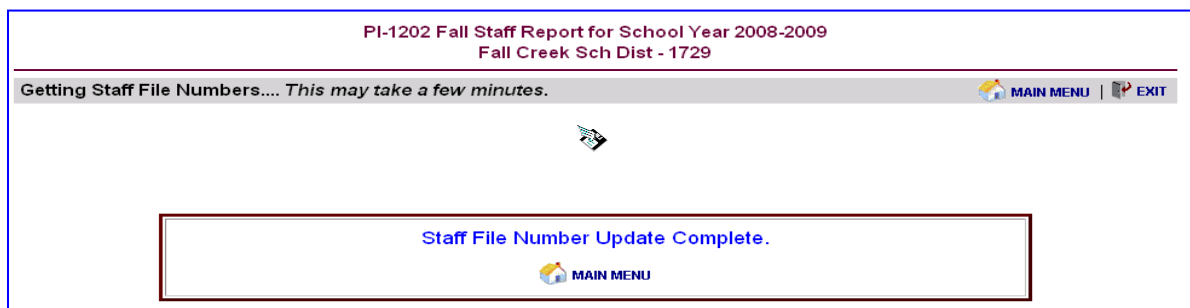

- Go to the Reports Menu and click on Missing/Invalid Staff File Numbers to identify any staff records that may have problems. Verify that the correct SSN is associated with that staff record.

❖ Validate Data

Data integrity of staff member and assignment data must be verified prior to submission. The following items must be validated without errors to submit the Fall Staff Report.

- Update of District Contact Information
- Upload or Creation of Staff & Assignment Records
- Missing/Invalid Staff File Numbers
- Approval of Salary Report
- Approval of Salary Report by Position, Ethnic Group and Gender
- Approval of No Teachers at School report

Note that errors will NOT appear on the Error and Conflict Reports until 'Validate Data' has been run. Also, the 'Validate Data' must be run after error correction to update the Error and Conflict Reports.

Validating Records:

Upon completion of the validation process, the following message is displayed. To view a list of assignment errors, go back to the Main Menu, click on "Reports" and then on 'Staff Assignment Errors'. Years of Experience in this LEA:

Note: *Both LEA and total years of experience are based on years of experience in education. This may overlap different positions. Example: four years as a teacher at district A and two years as a* teacher at district B (B being the reporting district) and six years as a principal at district B would make local years of education experience eight and total experience twelve. This can be determined asking the Human Resources staff for this LEA, by reviewing the employee's personnel files, and/or by asking the employee.

Common Reporting Errors

Duplicate staff records: If the same year, LEA and SSN appear on separate records within the upload, only the first record will be added. A message will be displayed upon completion of the upload process that there were multiple records for a single SSN in the file.

Duplicate assignment records: If the same year, SSN, hiring agency, working agency, school, position and area appear on separate records, a message will be displayed upon completion of the upload process that there were multiple records for a single assignment. If a staff member holds the same assignment for different grades, all the grades should appear in a single assignment listing.

Name Conflicts: If the name is different (first three letters of first or last name is different) than names with SAME SSN across ALL districts, there will be an error and the data cannot be locked. If there is a misspelling (first three letters are the same, but the rest is different) then it will result in a warning. Data can still be locked but it is recommended that data is corrected in the districts' records (on line and in their offices).

Other staff errors: If race, gender or birth year are different for same SSN across districts, an error will be generated. These errors will have to be resolved before data can be locked.

Assignment Records without corresponding Staff Records: Any assignments within that district which do not have a corresponding staff record will be deleted during the validation process. A message will appear upon completion of the validation process listing the SSN of the assignments that were deleted.

Grade Levels: If grade levels checked are grade 7 or above, and the working school is a middle, junior high or high school, then assignment code 0050 is invalid.
